To whom it may concern,

I had the opportunity to work with Carmel Whittle last year at the inaugural launch of my education program called "Earth To Sky" - Learning About Indigenous Art Through An Indigenous Lens. The launch took place at Sir Winston Churchill Public School in October 2017 with an enrollment of 95 students.

I was tremendously grateful for Carmel's quick thinking, connective nature with the students and her traditional knowledge was a great asset when it came to answering the many questions that came forward from the students. She is an efficient facilitator with an attention to details. Carmel was able to think and act "on the fly" when I needed her. I can honestly say that this would have been a much more challenging launch were it not for her.

I look forward to the opportunity when we can work together again.

If you have any questions please feel free to reach out to me any time.

Miigwetch. Thank you.
